“The NCBA and NCSA are thrilled to head back to Tampa for another year of the East Coast Spring Training Showcase. The TBSC has worked with us for well over a decade and I have no doubt that our 14th year in Plant City will be another one for the books. You cannot beat the atmosphere of Tampa Bay with the beaches, night life, MLB Spring Training games and theme parks! I think teams are starting to see the correlation between the benefits of Spring Training and the success they have heading into the post season. 18 of our teams who made the event this past year made Regional Playoffs and five of them made the World Series in their respective Divisions. As a staff, we are ready to get the ball rolling and we hope we see some familiar teams and also some new ones to kick off the 2019 Showcase,” says Tracy Reardon, Director of Spring Training Operations.
